CANADIAN PACKAGE TOURS 1967

Package tours are becoming more and more popular each year. They relieve travellers of tiresome details and leave them free to enjoy themselves. For those who are planning to visit Canada on a package tour, this booklet contains a list of such tours to or within Canada, giving in each case a brief description of the tour, the point of departure, the rate, the mode of transportation and the operator. More detailed information about each tour can, of course, be obtained from the transportation company or travel agency concerned, and the address given in this booklet is that of the main office. Many companies have, however, branch offices in various United States and Canadian cities where arrangements can also be made for these tours.

In addition to the tours listed in this booklet, the various Canadian transportation companies—rail, steamship, air, and bus—operate many other tours from the United States to Canada, including trans-Canada tours.

Note Carefully

The information in this booklet was compiled early in 1967 from the latest data available at time of printing. Rates quoted are subject to change at any time. Some rates are only approximate, but exact figures can be obtained when making arrangements with the company or agency.
